EDUCATION

Junior software engineering student Assiut National University

Sep 2022 – Jul 2026

Assiut, Egypt

EXPERIENCE

Freelance Flutter Developer

Freelancer & MostaqI

2024 – Present

Remote

- Developed and delivered cross-platform mobile applications using Flutter and Dart for clients through Freelancer and MostaqI.
- Built scalable, production-ready applications using Firebase, Supabase, RESTful APIs, and modern state management solutions while working directly with clients to implement requirements and deliver features.

Intern - Mobile App Development at Digital Egypt Initiative

April 2024 – December 2024

Assiut

- Gained practical experience in mobile application development using Flutter, Dart, Firebase, and RESTful APIs.

PROJECTS

Yalla Bena (Trivia Game) - (2025)

Google Play App Store

- Developed a production-ready Arabic trivia game featuring category-based quizzes, randomized questions, true/false gameplay, and real-time score tracking.
- Implemented an immersive RTL experience with detailed results, visual progress tracking, and a smooth full-screen gameplay experience.
- Flutter Dart Firebase Git Figma RTL

Mansoog (Curtains Management Platform) - (2026)

Live Demo

- Developed a multi-role curtains management application with a custom design engine, dynamic pricing, and order management workflows.
- Implemented scalable architecture and role-based features for managing products, designs, measurements, pricing, and customer orders.
- Flutter Dart Firebase Clean Arch Bloc UI/UX

Jannah (Islamic App) - (2026)

Google Play

- Developed an Islamic application that helps users maintain daily worship through Dhikr, Quran, Azkar, and daily spiritual activities.
- Implemented interactive Dhikr tracking, progress features, personalized sharing cards, and a modern user experience focused on performance and usability.
- Flutter Dart Firebase Bloc Local Storage UI/UX

ACHIEVEMENTS

2 x ECPC Finalist (2023 / 2024)

Finalist in the Egyptian Collegiate Programming Contest.

61st / 44st Place - ICPC Upper Egypt (2023 / 2024)

Ranked 61st / 44st out of 400+ teams.

Level One Seller with 5-Star Rating on Freelancer

- My Certificates

VOLUNTEERING

Mentor, Problem Setter & Vice President

ICPC Assiut National Community

2024 - Present

Co-founded and mentored students to enhance problem-solving skills in programming, algorithms, and data structures. Led initiatives to strengthen the competitive programming community, fostering collaboration and preparing participants for both national and international contests.

SKILLS

Mobile Development (Primary)

Flutter Cross-Platform Material Design
Responsive UI Animations

State Management & Architecture

BLoC Cubit Provider Clean Architecture
MVVM

Backend & Data

Firebase REST APIs JSON Hive
SQLite

Programming Languages

Dart Java Kotlin C++ Python

Tools & Engineering Practices

Git GitHub Agile CI/CD
